Cashew butter

Ground cashews. Three months is the shortest life of any nut butter in this table, and it belongs in a fridge after opening.

How long it keeps

Unopened, this keeps **3 months** — which is what puts it on [the long shelf](#).

As sold	Unopened, in the cupboard	Once opened
as sold	3 months	—

Counted from the date on the package. Figures are the **USDA FSIS FoodKeeper** table's, for unopened storage at room temperature; FoodKeeper counts a month as 30 days.

FoodKeeper's own note: *Does not need to be refrigerated.*

The table was not pulled from USDA — fsis.usda.gov answers 403 to non-browser clients from this machine — so it came from a mirror of the data.gov dataset and its vintage is unverified. Treat a single figure as indicative, not as a use-by date.
