Lemon juice

Bottled lemon juice, usually preserved further with sulphite. Its own acidity is why it sits on a shelf rather than in a fridge.

How long it keeps

Unopened, this keeps **a year** — which is what puts it on [the long shelf](#).

As sold	Unopened, in the cupboard	Once opened
as sold	12–18 months	2 months — refrigerated

Counted from the day you bought it. Figures are the **USDA FSIS FoodKeeper** table's, for unopened storage at room temperature; FoodKeeper counts a month as 30 days.

The table was not pulled from USDA — fsis.usda.gov answers 403 to non-browser clients from this machine — so it came from a mirror of the data.gov dataset and its vintage is unverified. Treat a single figure as indicative, not as a use-by date.
