White wine

Grapes fermented without skins. Less tannin than red, so it keeps about half as long unopened.

How long it keeps

Unopened, this keeps **2 years** — which is what puts it on [the long shelf](#).

As sold

Unopened, in the cupboard

Once opened

as sold

1–2 years

1–3 days — refrigerated

Counted from the date on the package. Figures are the **USDA FSIS FoodKeeper** table's, for unopened storage at room temperature; FoodKeeper counts a month as 30 days.

FoodKeeper's own note: *Dark, away from direct heat or sunlight.*

The table was not pulled from USDA — fsis.usda.gov answers 403 to non-browser clients from this machine — so it came from a mirror of the data.gov dataset and its vintage is unverified. Treat a single figure as indicative, not as a use-by date.
