## Yuzu juice

Bottled juice of the Japanese citrus. Sharply acidic and used in teaspoons.

## How long it keeps

Unopened, this keeps **6 months** — which is what puts it on [the long shelf](#).

---

**As sold**

**Unopened, in the cupboard**

**Once opened**

---

as sold

**4–6 months**

3–4 months — refrigerated

---

Counted from the day you bought it. Figures are the **USDA FSIS FoodKeeper** table's, for unopened storage at room temperature; FoodKeeper counts a month as 30 days.

The table was not pulled from USDA — [fsis.usda.gov](https://fsis.usda.gov) answers 403 to non-browser clients from this machine — so it came from a mirror of the [data.gov](https://data.gov) dataset and its vintage is unverified. Treat a single figure as indicative, not as a use-by date.
