Code

Website	Description
freeCodeCamp	Offers thousands of hours of interactive coding lessons, covering HTML, CSS, JavaScript, Python, and more. Completely free!
Codecademy	Provides interactive lessons with real-time feedback. Offers structured career paths like "Full-Stack Engineer" and "Data Scientist."
The Odin Project	A full-stack developer curriculum that emphasizes project-based learning. Great for building a portfolio.
Coursera	Features university-level courses from institutions like Stanford and Google. Some courses are free, while others require payment for certificates.
Skillcrush	Offers beginner-friendly coding camps covering HTML, CSS, JavaScript, and Python. Designed for career changers.

College course

Platform	Description
edX	Provides courses from universities like Harvard, MIT, and Stanford. Offers free courses, professional certificates, and full degree programs.

Coursera	Partners with institutions like Yale, Google, and Princeton. Offers free courses, paid certificates, and degree programs in fields like business, data science, and healthcare.
Comparison	A detailed breakdown of pricing, course offerings, and program types between edX and Coursera.
