agCom To-Do List

This week

- [] Choose the first September priority
- [] Choose the first October preparation task
- [] Add local holidays to [Yearly Calendar 2026](#)
- [] Review unfinished notes and link related topics

Content

- [] Add one useful note to agCom each week
- [] Add tags and frontmatter to new public notes
- [] Check broken or missing internal links
- [] Move drafts into `.review` before publishing

Garden and seasonal planning

- [] Record September harvests and saved seeds
- [] Finish October winterization checklist
- [] Review next season's planting ideas

Maintenance

- ☐ Review this list at the start of each month
- ☐ Archive completed tasks at the end of each quarter
- ☐ Confirm the site opens cleanly in Obsidian

Completed

- ☒ Create [September theme](#)
- ☒ Create [October theme](#)
- ☒ Create 2026 international holiday reference

Frontmatter and the linter

The property block the linter works against is power, moderator, reference, tags, status, version.

- ☐ Record a last-modified value whenever a moderator changes, so a handover is visible in the file rather than only in git. 2026-08-10
