#crops square foot [gardening](#) mission statementlink

the mission statement is simple. Due to the nature of large scale agriculture, monocultures are very important in order to make a return of bushels per acre. Questions to ask yourself. With technology and organization, can the USDA have a research program with amateur botanists? Could real research be published? become memberlink

Must participate in local forum boards. Must participate in experimental gardening network. Must be master gardener (with exceptions fs, bs in bio, chem, etc.)
