The Livestock Conservancy](<https://livestockconservancy.org/?form=MG0AV3>) (United States): This nonprofit organization focuses on protecting America's endangered livestock and [poultry](#) breeds from extinction. They work to preserve genetic diversity and promote sustainable farming practices¹.

- **Rare Breeds Canada:** Similar to The Livestock Conservancy, this organization is dedicated to preserving Canada's heritage livestock breeds.
- **The Institute for Agriculture and Trade Policy (IATP):** This organization promotes sustainable livestock management practices and advocates for policies that support environmentally friendly farming.
- **The Food and Agriculture Organization (FAO):** The FAO works globally to improve food security and

nutrition, including the preservation of livestock breeds.

- **Compassion in World Farming:** This organization focuses on improving the welfare of farm animals and promoting sustainable farming practices.
- **The Natural Resources Defense Council (NRDC):** The NRDC works to protect natural resources and promote sustainable agriculture, including the preservation of livestock breeds. **Rare Poultry Breeders Association (RPBA):** This association focuses specifically on rare and minority breeds of poultry. Joining this association could connect you with like-minded individuals and provide additional standards for your rare [eggs](#). **American Livestock Breeds Conservancy (ALBC):** ALBC is dedicated to preserving rare and endangered livestock breeds, including [cattle](#). They can offer guidance on breeding, conservation, and sustainable practices.

Sustainable Agriculture Research and Education (SARE): SARE focuses on sustainable agriculture practices, including livestock farming. Their resources can be valuable for integrating sustainable and ethical practices into your cattle farming.

Maine Organic Farmers and Gardeners Association (MOFGA): As mentioned earlier, MOFGA can be relevant for organic and sustainable farming practices, including cattle farming.

Maine Organic Farmers and Gardeners Association (MOFGA): While MOFGA primarily focuses on organic farming, they might have resources and connections that could support your sustainable and organic approach to poultry farming.

The Livestock Conservancy](<https://livestockconservancy.org/?form=MG0AV3>) (United States): This nonprofit organization focuses on protecting America's endangered livestock and poultry breeds from extinction. They work to preserve genetic diversity and promote sustainable farming practices¹.
