Scallion or Green Onion

#allium #tuber #permaculture Species sometime recognized as scallionslink

A. cepa 'White Lisbon' 'White Lisbon Winter Hardy' – an extra-hardy variety for overwintering Calçot A. cepa var. cepa – Most of the cultivars grown in the West as scallions belong to this variety.⁷ The scallions from A. cepa var. cepa (common onion) are usually from a young plant, harvested before a bulb forms or sometimes soon after slight bulbing has occurred. A. cepa var. aggregatum (formerly A. ascalonicum) – commonly called shallots or sometimes eschalot. A. Chinese A. fistulosum, the Welsh onion – does not form bulbs even when mature, and is grown in the West almost exclusively as a scallion or salad onion. ⁸ A. × proliferum – sometimes used as scallions⁹
