Botswana

Carried over unverified. The # Basic block below arrived on this page from a template copy and describes the United Kingdom, not Botswana — the population, languages, and capital are all wrong for this country. The media link under # Culture points at a DRC article for the same reason. Both are left in place pending a rewrite; do not cite them.

Basic

population: 67,026,292 **official languages:** Scots Ulster ScotsWelshCornishScottish GaelicIrishBritish
Signs area: **pop per sq km:** **capital:** London **largest:** London
